StyleLite Acrylic

Tesrol StyleLite® is the superior high gloss finish for all door, drawer and furniture construction.

StyleLite is the new high gloss acrylic finished sheet which provides a superior appearance compared with laminates, paint or vinyl - with a unique super hard surface that resists even the harshest treatment.

StyleLite provides a deep high gloss colour without ripples which makes it the only choice for designers and architects.

StyleLite is technologically advanced and is manufactured using state of the art extrusion processes that deliver a quality in uniformity, hardness and colour integrity that is industry leading.

Applications

StyleLite is suited for many different applications:

- Kitchen cabinets and doors
- Office Furniture and Partitions
- Entry and Passageway doors
- Wall cladding in retail outlets
- Wardrobe doors
- Entertainment and occasional furniture
- Shelving and Display cabinets

StyleLite is not recommended for outdoor use or where a direct heat source is applied.

Features

- Ultra high gloss ripple free surface
- UV and colour fade protected
- High scratch resistance
- Won't chip, crack or delaminate
- Very easy to clean and maintain
- Economical and easy to fabricate

Technical

- High gloss acrylic cap over colored ABS rated to an amazing level of hardness.
- For manual and volume lamination using suitable adhesive systems on a variety of substrates
- Surface marks can be easily repaired
- Good Chemical resistance
- No special equipment for machining
- Matching edge bands are available
- High UV and heat resistance
- Economical and easy to use
- 2405mm x 1205mm sheet size

Edge Tape

A near seamless appearance can be achieved using StyleLite high gloss ABS colour matched edge tape. Many other contrast and dual colour tapes can be used to achieve a sophisticated and contemporary style.

Cleaning

Best results are achieved by using a soft cloth or chamois with a non abrasive soap or detergent in warm water.

Polishing

Minor scratches and scuffs can be easily removed from StyleLite by hand with selected liquid polishes and soft polishing cloths.

Environment

StyleLite is fully recyclable by mechanical means. StyleLite sheet is manufactured and then laminated without the use of any VOC's or other harmful emissions. StyleLite is hygienic and does not promote bacterial growth or transmission.

Metallic Colours

Metallic colours are directional. Take note of the arrows on the protective sheet. We recommend all metallic panels are positioned with the arrows in one direction to avoid apparent shade or colour variation.
